DETAILED ACTION

Specification

1. The amendment filed 12/27/05 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: amendments to paragraph bridging pages 1 and 2, and amendment to page 11, first paragraph. There is no disclosure directed to the recess within the flap being bottle-like. A bottle can have any shape including shapes wherein the opening or top of the bottle is the same size as the body of the bottle. Therefor, the term "bottle-like" includes structures clearly beyond the scope of the instant invention.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Objections

2. Claim 31 is objected to because of the following informalities: this claim fails to further define the scope of claim 1. A dependent claim must further define the independent claim upon which it depends. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. Claims 23 and 37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no original disclosure directed to a

welt having a welt flap protruding from within the welt core wherein the welt flap has a recess in its interior (claim 23). Also, there is no original disclosure to the recess being "bottle shaped" (claim 23 and 37). A bottle can have any shape including shapes wherein the opening or top of the bottle is the same size as the body of the bottle. Therefor, the term "bottle-like" includes structures clearly beyond the scope of the instant invention.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 37 is rejected under 35 U.S.C. 102(b) as being anticipated by Belanger. Since a bottle may be any shape, the instant claim reads on the reference's welt that has a slot-shaped recess.

Allowable Subject Matter

6. Claims 1-22, 24, 25, 28-32 and 34-36 are allowed.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
